Talenti presenta le nuove collezioni ispirate alle calde e luminose atmosfere dei paesi che si affacciano sul Mar Mediterraneo declinando influenze e gusti con l'eleganza e lo stile minimal delle migliori scuole di design italiano e internazionale.

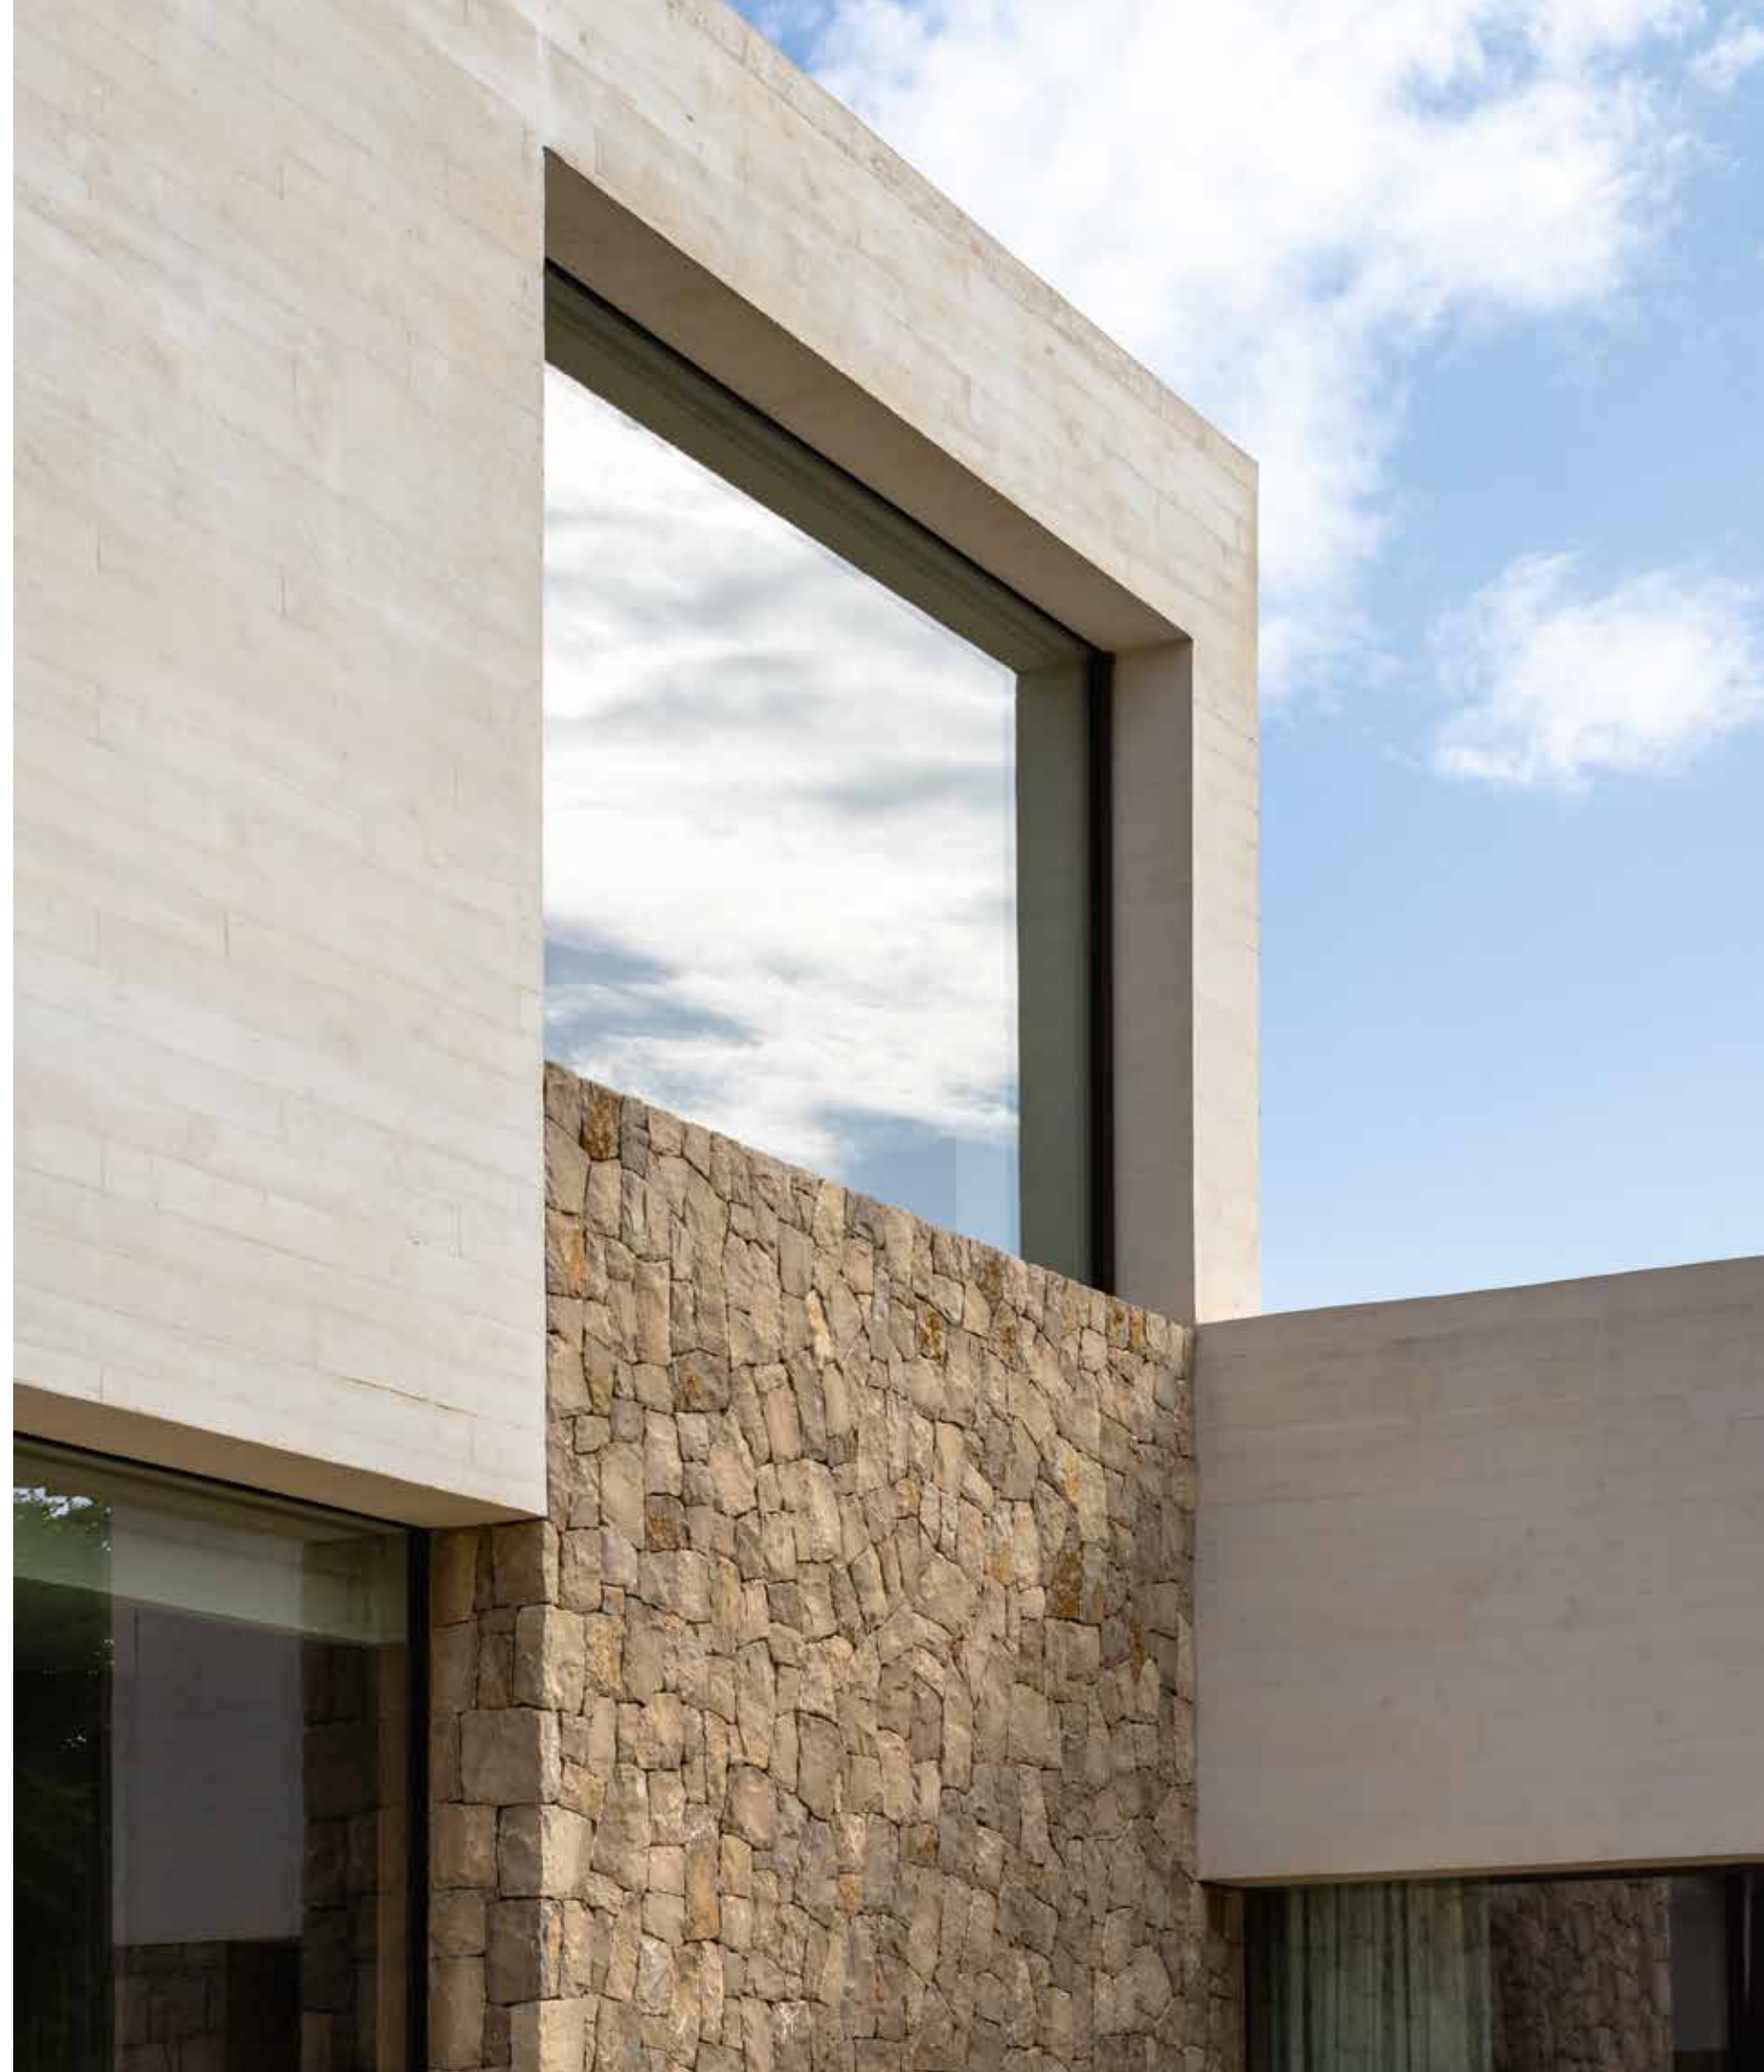

A raccontare lo splendore non solo della nostra bella Italia ma anche di Spagna, Francia, Grecia e Nord Africa sono i colori: la luminosità abbagliante del bianco, mitigata dai toni sobri ed eleganti dell'écru e del grigio, lascia spazio alla profondità del verde, alle sfumature calde e avvolgenti della terracotta, alla meraviglia dei fiori d'amaranto, al giallo vibrante dei limoneti del Sud.

Come mutuandoli da una tavolozza impressionista, con i colori si gioca sapientemente: talvolta essi spiccano come pennellate pure e vibranti e talvolta fanno da raffinata cornice alla vera protagonista, la natura. Questa maestria, unita alla ricercatezza di materiali e finiture, darà vita a case e giardini piene di sole, mare e pura gioia.

**The new collections presented by Talenti are all inspired to the warm and bright atmospheres that you can breathe in the countries lapping the Mediterranean Sea. Characterised by high-quality elegance and minimal style, they are the fruit of the best international and Italian design schools.**

**The use of colours allows to describe not only the beauty of Italy, but also the splendour of Spain, France, Greece and North Africa: the brightness of the white, tempered by the sober and elegant tone of the écru and grey, makes way to the intensity of the green, along with the warm shades of terracotta, the charm of the amaranth flowers and the yellow vibrancy of the south lemon orchards.**

**As in an impressionist palette, our designers have created plays of colours, sometimes pure and vibrant and sometimes coprotagonists of nature, the real star. This mastery, together with the quality and research for the materials will bring in your homes and gardens plenty of sun, sea and absolute joy.**

## Swipecollection

Design Ludovica + Roberto Palomba

Disegnato dallo studio Palomba Serafini nasce Swipe, con la volontà di creare una collezione che, come evoca lo stesso nome, fosse dominata dal movimento. Un progetto che unisce estrema comodità a un design dalla forte personalità, caratterizzato dal contrasto tra le morbide linee delle sedute e le geometrie create dalle versatili corde imbottite. L'utilizzo dell'alluminio per la struttura non impedisce agli elementi di questa collezione di svilupparsi in totale assenza di rigidità: gli schienali di divani e poltrone contengono la cuscineria generosa, aprendosi alle estremità, come ad accogliervi in un abbraccio, mentre gli elementi dining della collezione sembrano fluttuare in aria grazie al gioco di trasparenze della base a intreccio.

Design by Studio Palomba Serafini is born Swipe, with the desire to create a collection that, as the name suggests, was dominated by movement. A project that combines extreme comfort with a design with a strong personality, characterized by the contrast between the soft lines of the seats and the geometries created by the versatile padded strings. The use of aluminum for the structure does not prevent the elements of this collection to develop in total absence of rigidity: the backs of sofas and armchairs contain generous cushions, opening at the ends, as if to welcome you in an embrace, while the dining elements of the collection seem to float in the air thanks to the interplay of transparencies of the woven base.

## **Coral**collection

Design Marco Acerbis

Ispirata alla modularità, la collezione Coral è caratterizzata da materiali quali alluminio e corda che impreziosiscono il prodotto e ne garantiscono la qualità nel tempo. Le linee pulite e le composizioni equilibrate della collezione sono arricchite da una serie di complementi che permettono un alto livello di utilizzabilità e confort. Il tema della corda è preponderante e lo si ritrova anche come dettaglio nelle impugnature delle sedute, nel side table o nei pouf. I divani sono caratterizzati da un volume solido sulla seduta, addolcita dai cuscini decorativi, in contrasto con le sedie e le sedute lounge la cui struttura esile e raffinata introduce il tema della leggerezza.

Coral Collection is inspired by modularity and it is characterized by materials, such as aluminum and rope, that embellish the product and at the same time grant its quality in the long term. The clean lines and the balanced compositions are enriched by a series of accessories that allow a high level of usability and comfort. The theme of the rope is predominant and it is possible to find it also as detail in the handles of the seats, in the side table or in the pouf. The Sofas, that are softened by the decorative cushions, are characterized by the solid volume of the seat creating a contrast with the chairs and the lounge seats whose thin and refined structure introduces the theme of lightness instead.

## **Slam**collection

Design Ludovica + Roberto Palomba

Quando la semplicità e la linearità delle forme caratterizzano il progetto, nascono collezioni come la nuova Slam. Pochi elementi facilmente combinabili fra loro per dare vita ad innumerevoli interpretazioni. La struttura/telaio interamente in alluminio avvolta da un rivestimento in tessuto e unita a morbide cuscinate, caratterizza l'intera collezione per le sue linee pulite ed essenziali.

When simplicity and linearity of the shapes characterize a project, the result is a collection like the new Slam. Few elements can be easily combined to give life to several interpretations. The coated structure/frame entirely made in aluminum, enveloped by a textile coating and combined with soft cushions, connote the entire collection for the essential and clean shapes.

## **CleoSoft**collection // Alu

Design Marco Acerbis

Filo conduttore della collezione Cleo Alu è la creazione di un prodotto giovane, dinamico, capace di coinvolgere emotivamente chi lo osserva. Una collezione nata dalla voglia di sperimentare un gioco di contrasti e di combinazioni materiche inedite: la leggerezza dell'alluminio, l'attualità delle superfici in vitre, la sorprendente eleganza dei rivestimenti tessili e una nuova cuscineria morbida di grande accoglienza e confort concorrono a creare una linea che si adatta perfettamente ad ogni stile o spazio esterno.

The leading principle of the Cleo Alu collection is the creation of a young and dynamic line, capable of emotionally involving the observer. Cleo alu collection is driven by the desire to experiment with contrasts and unprecedented combinations of materials: the lightness of the aluminium, the modernity of the vitre surfaces and the surprising elegance of the upholstery are combined with a new soft cushioning that is very welcoming and comfortable, creating a new line that perfectly suits any style or outdoor space.

## Framecollection

Design Ludovica + Roberto Palomba

Caratterizzata dall'accostamento di strutture in alluminio, intrecci in corda e confortevoli cuscinature, indiscutibile la sua sensuale presenza nello spazio outdoor. L'intreccio della corda imbottita sulla struttura tubolare crea una finestra reticolata che regala affascinanti giochi di luce quando i raggi si posano sulle fessure. Volumi leggeri e sensuali per un perfetto relax outdoor e per una perfetta privacy visiva.

Frame Collection is characterized by the juxtaposition of aluminum structures, rope interweaving and comfortable cushions that make indisputable its sensual presence in the outdoor space. The interweaving of the padded rope on the tubular frame creates a reticulated window capable of giving fascinating plays of light when the rays lay on the slits. The light and sensual volumes are ideal for a perfect outdoor relax and a perfect visual privacy.

**Moon**collection // Alu  
Design Cristian Visentin

L'eleganza e le forme sinuose della collezione Moon Teak unite alla praticità dell'alluminio delle strutture danno vita alla collezione Moon Alu. Linee sobrie arricchite da soffici imbottiture proposte nelle varianti cromatiche del grigio che ben si adattano ad ogni tipo di arredamento. Una collezione calda, invitante, chic ed intrigante. Poltrone, divani e tavoli altamente funzionali dal fascino senza tempo.

The elegance and the sinuous forms of the Moon Teak combined to the practicality of the aluminum frames give life to the Moon Alu. Clean lines are enhanced by comfy paddings in different shades of grey that are perfectly adaptable to your home furniture. Moon Alu collection is simultaneously warm and appealing, stylish and tempting. A range of armchairs, sofas and tables with a practical functionality combined to a timeless elegance.

## **Panama**collection

Design Ludovica + Roberto Palomba

Nata dal desiderio di rievocare l'ondeggiare delle palme mosse dalla brezza marina e la levigatezza delle pietre modellate dall'acqua, la collezione Panama presenta sedie, lounge, sgabelli, lettini, pouf e divanetti dalle ampie forme in cui le linee delle corde intrecciate e attraversate dai raggi del sole danno vita a giochi di luci e ombre.

Panama collection arises from the designer's wish to evoke the cool sea breeze swaying the palm trees and the smoothness of the stones modeled by the water. It consists of chairs, lounge, barstools, sunbeds, poufs and sofas, whose main features are the wide shapes in which the lines of the intertwined ropes crossed by sun's rays create a magical play of lights and shadows.

## Lakecollection

Design Marco Acerbis

La collezione Lake si ispira alla pianta di bamboo così sinuosa e naturalmente elegante. I moduli dei tubolari di alluminio che si connettono tra loro con dei nodi in fusione sono un richiamo alla rigida morbidezza del bamboo che alterna zone lisce a punti rigidi dalla forma ad anello. Oltre alla collezione di sedute troviamo anche il tavolo allungabile, dalle forme morbide e aggraziate, che tramite le slitte e l'allungo nascosto non solo ottempera alla sua funzione ma è anche un oggetto di seducente contemplazione.

The Lake collection is inspired by the sinuous and naturally elegant bamboo plant. The aluminum structures, which connect with cast knots remind to the rigid softness of bamboo, which balances smooth areas and ring-shaped rigid points. In addition to the seating collection we also find the extending table, with its soft and graceful shapes, which through its slides and hidden extension, not only fulfils its function but is also an object of seductive contemplation.

## Malècollection

Design Ludovica + Roberto Palomba

Da forme geometriche marcate, eleganti e leggere, nasce una collezione che offre il massimo comfort. La caratteristica principale della collezione Malè è la sua seduta bassa, una struttura rigida e squadrata come un guscio, realizzata in rotostampaggio, per una versatilità che si eleva anche grazie al rivestimento degli imbottiti. Molteplici sono i risultati possibili da poter creare grazie allo studio dei volumi e della loro modulistica, che vanno a dar vita a spazi intimi e conviviali.

A new collection is born from elegant, light and marked geometric shapes and it offers maximum comfort. The main feature of the Malè collection is its low seat, a rigid and squared structure, just like a shell, made in rotomoulding, for a versatility that is elevated thanks to the upholstery of the padded furniture. There are many possible results that can be created - thanks to the study of volumes and their forms - which give life to intimate and convivial spaces.

## **Tweet**collection

Design Ludovica + Roberto Palomba

Nella collezione Tweet la tecnica dello stampaggio rotazionale trova un rinnovato vigore, una nuova ragion d'essere e l'outdoor si configura come luogo privilegiato del progetto. Ludovica + Roberto Palomba hanno voluto con Tweet assecondare il tema dell'accoglienza, della convivialità. Una nuova esperienza outdoor in cui potersi sentire abbracciati dalle curve degli elementi della collezione Tweet.

In the Tweet collection, the rotational moulding technique finds renewed vigour, a new raison d'être, and the outdoors is configured as a privileged place for design. With this collection Ludovica + Roberto Palomba wanted to support the theme of hospitality and conviviality. A new outdoor experience where you can feel embraced by the curves of the Tweet collection elements.

## Reefcollection

Design Marco Acerbis

Il lettino prendi sole in rotazionale è un tema molto caro ai designer in quanto il materiale plastico permette di esprimersi con delle forme libere che sono tipiche della tecnologia del rotazionale. Nel caso del lettino Reef l'obiettivo del designer Marco Acerbis era quello di creare una forma comoda e pulita allo stesso tempo, senza fronzoli e che nascesse dal terreno in modo naturale. Così ha creato una seduta che ricorda le onde del mare pur avendo una stabilità ed equilibrio visivo rassicurante. Ogni curva e raccordo è stata studiata nel dettaglio in modo che il confort sia massimo. Per i più esigenti è stato inserito un cuscino che si adagia delicatamente sulla scocca della seduta ammorbidendo il prodotto.

The creation of a rotational sunbed is a theme that is particularly close to a designer as the use of plastic materials, which are typical of the rotational technology, allows the expression with free forms. In the case of the Reef sunbed, the goal of the designer Marco Acerbis was to develop a comfortable product with clean shapes, without frills, seeming to grow naturally out of the ground. He has created a seat that brings to mind the sea's waves, characterised by a reassuring stability and visual balance. Every curve has been studied in detail to ensure maximum comfort. For the most demanding clients, we have included the possibility to use a cushion that will make the product more comfortable and soft.

## **Alabama**collection // Alu

Design Marco Acerbis

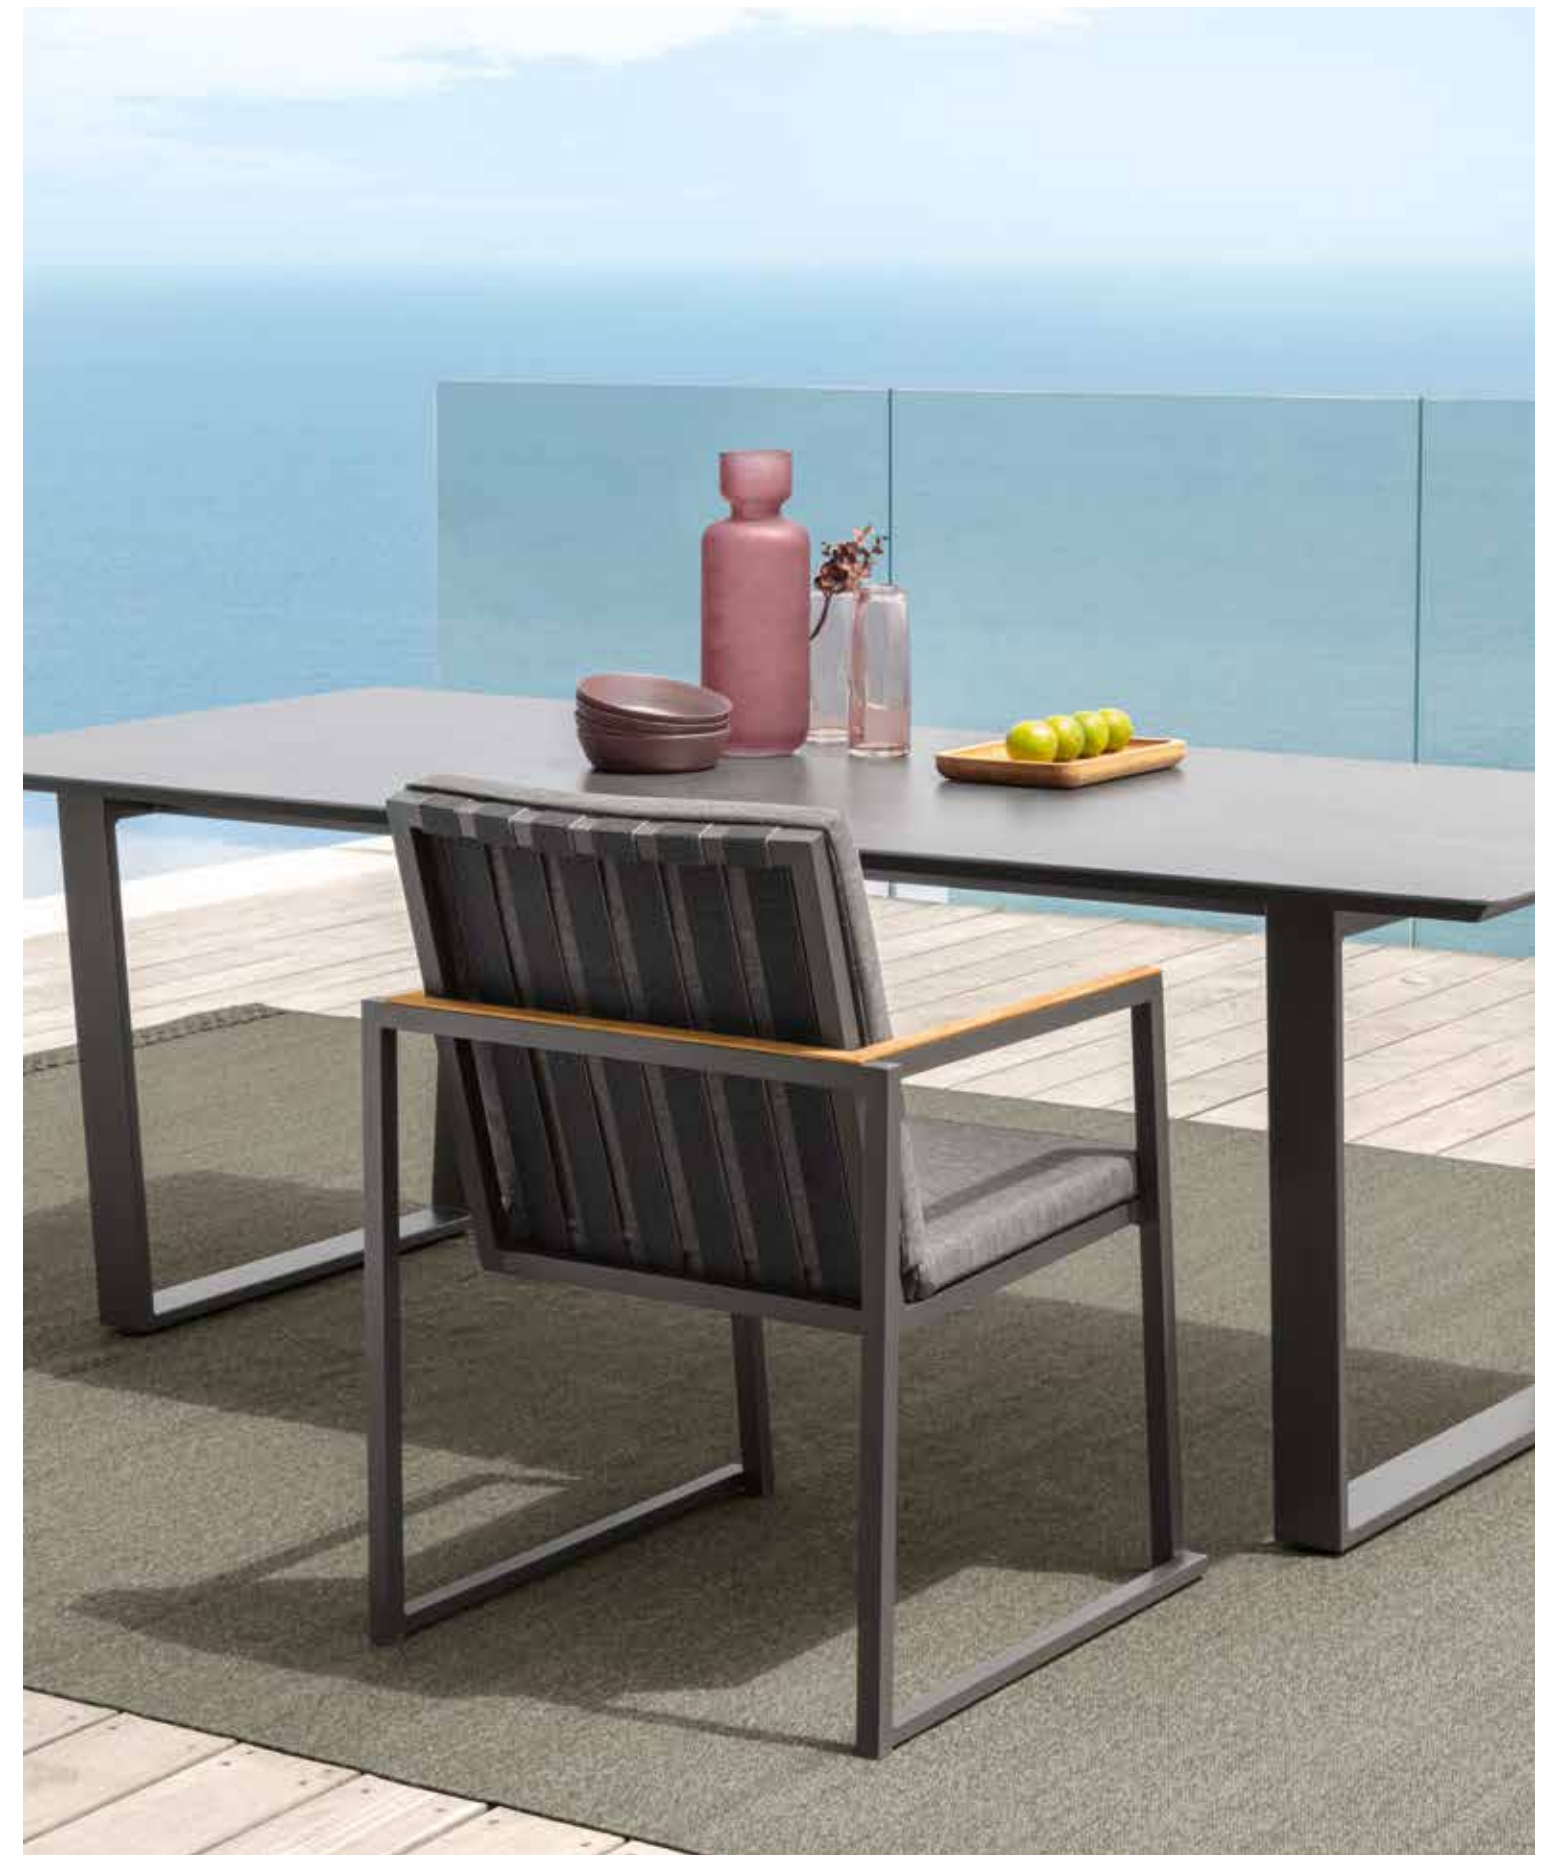

Il tratto sofisticato del design italiano e la nobiltà della tradizione artigiana: questa sintesi dà vita alla collezione Alabama. Un modello raffinato e contemporaneo con sedute comode e dimensioni contenute, in grado di soddisfare ogni esigenza di spazio e di stile. La struttura in alluminio, che fornisce stabilità al prodotto, si sposa con il listello in teak, dal colore caldo che rifinisce lo schienale ed i braccioli, diversi materiali per creare un'alchimia perfetta con il contesto che lo circonda.

The sophisticated line of Italian design and the nobility of the artisan tradition: this union gives life to the Alabama collection. A refined and contemporary style with comfortable seats and contained dimensions, able to satisfy every need of space and style. The aluminum structure, which provides stability to the product, is perfectly combined with the teak slat, which with its warm color refines the backseat and the armrests. Different materials to create a perfect chemistry with the surrounding context.

## **Milo**collection

Design Marco Acerbis

Eleganza romantica, attenzione ai dettagli, la collezione Milo è costruita sartorialmente come un abito. Toccare è permesso, anzi, è obbligatorio. Questo il concept intorno al quale ruota il progetto di Marco Acerbis. Il risultato finale è una famiglia di oggetti che hanno tutti un animo forte, pur inserendosi nell'arredo senza arroganza. La linea è morbida ma rigida, colorata ma con equilibrio, moderna ma senza tempo.

Romantic elegance. Attention to details. Tailored as a perfect dress. Touching is allowed, no, it is compulsory. This are some of the ideas that Marco Acerbis kept in mind while sketching this collection. The result is a very lively family of objects that have a strong character and yet do know their place without being too arrogant. It is soft yet rigid, colorful but with balance, modern but timeless.

# Materials

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elevata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.

Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.

Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.

Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the cathoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Legni / Wood

Teak

Accoya natural teak colour

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Iroko: particolare tipo di legno dotato di numerose proprietà meccaniche, fisiche e tecnologiche: la capacità di opporsi alle sollecitazioni esterne e l'attitudine a lasciarsi lavorare nonostante la sua durezza. La particolare stabilità e la medio-alta durezza conferiscono a questo legno una buona resistenza alle deformazioni e ne garantiscono una durata nel tempo davvero eccellente.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

**Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.**

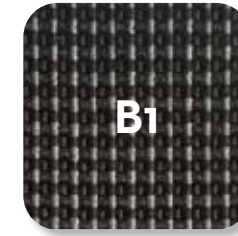

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable raw material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Iroko: particular type of wood with numerous mechanical, physical and technological properties: its resistance to external stress and workability despite its hardness. The particular stability and medium-high hardness give this wood a good flexural strength resistance to deformation and guarantee excellent durability.

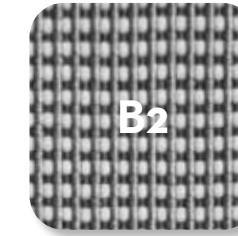

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Ottenute mediante la tessitura di materiali sintetici studiati per permettere di essere usata all'esterno.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato. Si consiglia di evitare l'utilizzo di solventi.

Utilizzare acqua e detersivi liquidi non abrasivi con PH neutro ed incolore.

**Obtained through the weaving of synthetic materials especially conceived outdoor use.**

**We recommend to avoid prolonged contact with greasy substances and / or dyes which could be absorbed by the covering material used and consequently cause permanent stains and risk to deteriorate the structure of the yarn. It is advisable it is suggested to avoid the use of solvents. Use water and non-abrasive liquid detergents with neutral PH and colourless.**

Caratteristiche principali:

- interamente impermeabile
- ignifugo ed autoestinguente (classe B-s2, d0)
- altissima resistenza agli urti e ai graffi
- resiste all'uso di detergenti chimici aggressivi
- adatto al contatto diretto con gli alimenti
- non trattiene odori e sapori
- antibatterico, per rispondere ai più severi requisiti igienici.

In caso di sporco ostinato o incuria rimuovete prima con un panno morbido e umido eventuali depositi di materiale secco, senza sfregare per non rigare la superficie.

Utilizzate poi una spugna morbida non abrasiva e un detergente domestico, lavate la superficie con il detergente e risciacquate con acqua tiepida, quindi asciugate bene.

Vitter is the latest generation compact laminate formaldehyde-free characterized by a durable surface, with the unique feature of being full colour, inside and outside.

Main features:

- it is completely waterproof
- it is flame-retardant and self-extinguishing (class B-s2, d0)
- it has a very high resistance to impacts and scratches
- it is resistant to the use of aggressive chemical detergents
- it is suitable for direct contact with food
- it does not retain odours or flavours
- it is antibacterial, to meet the most stringent hygiene requirements.

In case of stubborn dirt or lack of care, we recommend to first remove any dry deposits with a soft and damp cloth, without rubbing to avoid scratching the surface.

Then use a soft, non-abrasive sponge and a household detergent, wash the surface with the detergent and rinse with warm water, at the end dry thoroughly.

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Grazie all'utilizzo di materiali puri compattati tra loro ad alte temperature, senza l'aggiunta di resine sintetiche, il gres risulta molto resistente agli urti e alla flessione.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

The stoneware, thanks to its excellent physical and flexural strength, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. Composed of pure ingredients compacted at high temperatures, without the addition of synthetic resin.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

# Materials

Cemento / Concrete

Beige cement

Grey cement

Blue cement

Il cemento è un materiale naturale e, in quanto tale, durante il suo processo produttivo possono verificarsi leggere sfumature e variazioni delle tonalità dell'impasto cementizio, che caratteristica portante del materiale e della tecnologia.

Le fibre sono una componente dell'impasto cementizio e conferiscono al cemento Ductal la sua estrema resistenza e flessibilità. Se la finitura scelta è molto levigata, le fibre possono intravedersi sulla superficie e devono essere accettate come caratteristica intrinseca alla finitura.

I piani in cemento, specialmente di grandi dimensioni, non sono perfettamente planari a causa della natura stessa del materiale e della sua lavorazione artigianale.

Micro cavillature da ritiro, devono essere accettate come fenomeno naturale della lavorazione del materiale.

Piccoli fori e bolle possono apparire sulla superficie dei prodotti in cemento. Essi sono una naturale conseguenza del processo produttivo e parte integrante delle caratteristiche del materiale. Il loro aspetto e la loro quantità varia da finitura a finitura. I fori inferiori a 4 mm di diametro vengono lasciati tali, mentre di norma vengono stuccati quando superano il diametro di 5 mm.

Il cemento è un materiale poroso che tende ad assorbire i liquidi che entrano in contatto con la sua superficie, per questo va protetto con dei prodotti appositi; antidegrado ed antimacchia. È importante quindi evitare il ristagno dei liquidi sui piani e specialmente il contatto prolungato tra cemento e oggetti bagnati quali vasi, bottiglie, bicchieri o teli di plastica: una non corretta evaporazione dei liquidi può causare infatti macchie difficilmente removibili dai manufatti.

Eseguire una pulizia superficiale con l'utilizzo di una soluzione di acqua e detergente neutro con basso contenuto di cera (es. prodotti per pavimenti in marmo). Per macchie insistenti, è possibile utilizzare soluzioni che contengono ammoniaca/candeggina diluita al 10%, cioè 1 parte di candeggina su 10 parti di acqua.

Cement is a natural material and due to its nature it may present slight nuances and variations in its combination, which is a key characteristic of the material and production technology.

Fibres are a component of the cement mix and give the Ductal cement its extreme strength and flexibility.

If the chosen finish is highly polished, fibres may be visible on the surface and must be accepted as an intrinsic feature of the finish.

Cement top and flat surfaces, especially the large ones, are not perfectly flat due to the nature of the material and its craftsmanship.

Micro shrinkage cracks must be accepted as a natural phenomenon of the material's workmanship.

Small holes and bubbles may appear on the surface of cement products. They are a natural consequence of the production process and an integral part of the material's characteristics.

Their appearance and quantity varies from finish to finish.

Holes smaller than 4 mm in diameter are left as they are, while they are normally grouted when they exceed 5 mm in diameter.

Cement is a porous material that tends to absorb liquids which get in contact with its surface, which is why it must be protected with special products such as anti wear sealant and Anti stain sealant. It is therefore important to avoid the stagnation of liquids on the surfaces and especially the prolonged contact between cement and wet objects such as vases, bottles, glasses or plastic sheets: incorrect evaporation of liquids can cause stains that are difficult to remove.

Clean the surface with water and neutral detergent with a low content of wax (for ex. marble flooring products). Stubborn stains can be cleaned by using a solution containing 10% diluted ammonia/bleach, which is 1 part bleach for 10 parts water.

Il polietilene è un materiale plastico molto adatto all'arredo esterno. Ha una superficie particolarmente pratica, lavabile, resistente ai raggi UV e agli agenti atmosferici nel corso del tempo. Ha un'elevata resistenza agli urti, una resistenza eccellente alla corrosione e ai prodotti chimici.

Non è penetrabile da liquidi come acqua, soluzioni saline o alcool.

Non utilizzare acidi ossidanti, quali acido Nitrico, acido solforico o alogeni.

Polyethylene is a plastic material that is perfectly suitable for outdoor furniture. Its surface is particularly practical, washable, UV and weather-resistant over the time.

Not penetrable by liquids such as water, salt solutions or alcohol, this material stands out also for its high-impact resistance and its excellent resistance to corrosion and chemicals.

Do not use oxidising acids, such as nitric acid, sulphuric acid or halogens.

# Materials

100% Polyurethane tech

Il poliuretano Tech è un poliuretano strutturale quindi non necessita di alcuna struttura metallica interna. È un materiale ad alta densità (600-700 Kg/m<sup>3</sup>) che permette di realizzare qualsiasi forma, con spessori anche molto sottili. Ha un'elevata resistenza agli urti, ben superiore a quella dei tradizionali rigidi strutturali, mantenendo comunque una gradevole elasticità in termini di comfort. Ha una buona resistenza al graffio.

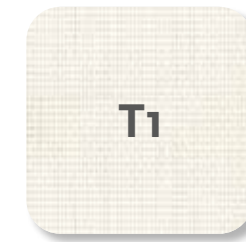

Pulire le sedute in poliuretano è molto semplice, pratico e veloce. Per prima cosa è necessario rimuovere lo sporco dalla seduta, per garantire la durata dei prodotti pulisci le superfici utilizzando solo acqua tiepida e sapone neutro. Non utilizzare solventi aggressivi come l'acetone o detergenti a base di benzine e alcalini che possono aggredire chimicamente il materiale compromettendone estetica e integrità strutturale.

The polyurethane Tech is a structural polyurethane, therefore it does not need any inner metallic structure. Is a high density material (600-700 Kg/m<sup>3</sup>) that enables to make any shape with very thin designs. Tech has a high shock resistance, much higher if compared to traditional structural rigid PU, keeping at the same time a good elasticity in terms of seating comfort. It has a good resistance to scratches too.

Cleaning polyurethane seats is very simple, practical and fast. First of all, it is necessary to remove the dirt, then you must moisten a cloth with water and with a suitable specific product that is not too aggressive. To ensure the durability of the products, clean the surfaces using only warm water and neutral soap. Do not use aggressive solvents such as acetone or petrol and alkaline based detergents which can chemically attack the material compromising its aesthetics and structural integrity.

Il Textilene è una fibra di poliestere protetta da un rivestimento in PVC. Le fibre vengono poi legate insieme in modo da ottenere una sostanza fibrosa particolarmente solida è permanente, resistente allo stiramento ed immune da strappi. La caratteristica più importante è la sua elasticità, offre un'eccellente resistenza alle muffe e alle macchie, e presenta un trattamento superficiale contro la degradazione UV.

Il textilene può essere pulito semplicemente con un panno di spugna con acqua saponata. Abrasivi e solventi devono essere assolutamente evitati! Si asciuga molto rapidamente a causa della loro struttura aperta.

Textilene is a polyester fiber protected by a PVC coating. The fibers are bonded together so in order to obtain a particularly solid fibrous material which is durable, resistant to stretching and wear resistant too. The most important characteristic is its elasticity, offers excellent resistance to inhibits mold and stains, and has a surface treatment against UV degradation.

Textilene can simply be cleaned with a sponge cloth with soapy water. Abrasives and solvents must absolutely be avoided! It dries very quickly due to their open structure.

Realizzato con un accoppiato in 3 strati. I due strati esterni sono di propilene ed hanno funzione sia estetica, sia di protezione della membrana interna. La membrana interna è il tessuto tecnico che svolge la maggior parte del lavoro e che ha le proprietà di permeabilità all'aria e impermeabilità. Lavaggio: acqua e sapone, no lavaggio a macchina o a secco.

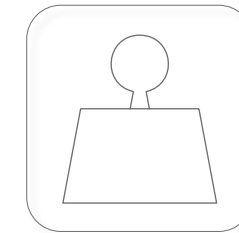

- Composizione tessuto: polipropilene
- Peso del tessuto: gr 170 circa
- Resistenza alla lacerazione (chiodo): N(MD) 180 - norma EN12310-1
- Resistenza alla penetrazione d'acqua: mm 1200 - norma EN 1928
- Permeabilità all'aria I/(mq-s): norma EDANA 140.2-99

# Style Premium Wood

Nasce Premium Wood come raccolta interamente dedicata a quelle collezioni che fanno del legno naturale il loro punto di forza, rendendo giustizia a un materiale che ormai da anni regala tra le creazioni più versatili e sofisticate di casa Talenti, talvolta raccogliendo le redini delle omonime linee Alu e reinterpretandole in ottica naturale, talvolta dando vita a qualcosa di originale e unico. In un viaggio immaginario che inebria i sensi, tra i paesaggi mozzafiato dell'Italia, della Francia e della Spagna, dominano le venature miele del teak e del accoya che riportano alla mente gli imponenti boschi montani, le cromie soft del beige e del bianco come la sabbia di spiagge paradisiache, i colori pastello del blu, del verde e del rosso in un volo che attraversa i mari caldi del Mediterraneo e le dolci colline irrorate dal sole caldo del sud. Nuove forme, combinazioni e finiture scelte con cura e realizzate da mani sapienti per arricchire spazi outdoor all'insegna del vivere in sintonia con la natura.

**Premium Wood is born as a collection entirely dedicated to those collections that make natural wood their strong point, doing justice to a material that for years now has been giving the most versatile and sophisticated creations of Talenti, sometimes collecting the reins of the homonymous Alu lines and reinterpreting them in a natural way, sometimes giving life to something original and unique. In an imaginary journey that inebriates the senses, among the breathtaking landscapes of Italy, France and Spain, dominate the honey veins of teak and accoya that bring to mind the imposing mountain forests, the soft shades of beige and white like the sand of paradisiacal beaches, the pastel colors of blue, green and red in a flight that crosses the warm seas of the Mediterranean and the gentle hills sprinkled by the warm sun of the south. New shapes, combinations and finishes carefully chosen and made by skilled hands to enrich outdoor spaces in the name of living in harmony with nature.**

## **Dolce Vita**collection

Design Studio Talenti

Ispirata alle calde sere d'estate, la collezione Dolce Vita, con il suo design essenziale, nasce per donare freschezza a qualsiasi spazio outdoor. Leggera nelle forme e al contempo raffinata grazie alle finiture in teak e gres, è caratterizzata dal fitto intreccio di corde che fanno da file rouge alle composizioni living, dining e relax con una vasta scelta di cromie pastello per adattarsi ad ambienti anche molto diversi stilisticamente.

Inspired by warm summer evenings, the Dolce Vita collection, with its essential design, was created to give freshness to any outdoor space. Light in shape and at the same time refined thanks to the finishes in teak and stoneware, it is characterized by the dense weave of ropes that act as a common line to the living, dining and relax combos with a wide choice of pastel colors to adapt to environments also very different stylistically.

Design Cristian Visentin

Una proposta dallo stile elegante, caratterizzata dal colore del legno teak naturale e dalla corda intrecciata, che ne esalta l'aspetto naturale ed artigianale. Una collezione di tavoli, divani e sedie che traggono ispirazione dalle forme sinuose della luna. Una struttura affusolata concepita per sostenere e avvolgere sedute comode e spaziose che rendono la collezione Moon un accessorio indispensabile per godere di piacevoli momenti di relax creando ambienti unici e lussuosi.

A collection that skillfully highlights both natural and artisan features, thanks to the warmth of wood (natural teak) and the woven rope. A collection of tables, sofas and chairs whose lines draw inspiration from the sinuous forms of the moon. A slender frame conceived to support and envelope an elegant and comfortable seating shell that makes Moon collection an indispensable furniture to live a relaxing moments creating a unique and luxury.

## **Oliver**collection

Design Studio Talenti

In Oliver, tutta la bellezza delle sfumature del legno naturale vengono esaltate dall'accostamento con il bianco caldo del tessuto. In questa collezione in cui il legame con la natura si esprime nella sua forma più genuina, le linee regolari del teak delle strutture living e dining, creano una composta alternanza di forme che abbraccia cuscinerie morbide e discrete. Anche i piani dei tavoli in graniglia, novità assoluta tra le collezioni Talenti, dalla piacevole finitura liscia in cui tutte le cromie si mescolano gradevolmente, contribuiscono nell'intento di dar vita ad un unicum dai toni neutri in stretto contatto con l'ambiente naturale.

In Oliver, all the beauty of the shades of natural wood are enhanced by the combination with the warm white of the fabric. In this collection where the link with nature is expressed in its most genuine form, the regular lines of teak of the living and dining structures, create a compound alternation of shapes that hug soft and discreet cushions. Graniglia table tops, with a pleasant smooth finish in which all the colours are pleasantly mixed, also contribute to create a unique neutral tone in close contact with the natural environment.

## **Alabama**collection // Wood

Design Marco Acerbis

Design, gusto e proporzioni sono elementi essenziali di questa linea. Nella collezione Alabama, il legno di iroko fa da protagonista ed è unito alla morbidezza del tessuto degli schienali e delle sedute. Uno stile fresco e minimale ma al tempo stesso ricercato, in cui materiali diversi si fondono per creare una collezione dal carattere unico e dal sapore contemporaneo.

Design, taste and proportion are essential elements of Alabama collection where iroko wood, with its ability to impart colour and warmth, plays the lead role. A collection with a minimal but refined style, where the mix and match of different materials creates a range from a unique and contemporary design.

## **Prichi**collection

Design Studio Talenti

Direttamente dai salotti in stile inglese, una collezione che comunica con l'ambiente naturale ma non vuole rinunciare alla compostezza tipica degli arredamenti indoor. Prichi si compone di un set living e uno dining cozy chic, caratterizzati dall'utilizzo di materiali che ben si adattano a una vasta gamma di architetture. I piani caffè dal taglio essenziale e moderno contrastano con l'elaborato intreccio di corde e legno che si sviluppa su schienali e braccioli, rendendo le sedute di questa collezione elementi d'arredo sofisticati.

Directly from the living rooms in English style, a collection that communicates with the natural environment but does not want to give up the composure typical of indoor furniture. Prichi consists of a cozy chic living and dining set, characterized by the use of materials that suit well to a wide range of architectures. The coffee tops with an essential and modern cut contrast with the elaborate weave of ropes and wood that develops on the backs and armrests, making the seats of this collection sophisticated outdoor elements.

## **Nami**collection

Design Teresa Sapey

Compatto e moderno, Nami è il sunbed versatile che arricchisce ogni spazio relax. Con il suo iconico poggiatesta mobile che si tramuta in elegante bracciolo centrale, si rivela un'assoluta novità in grado di adattarsi a molteplici contesti di design, risultando sempre protagonista. Unico nel suo genere, nasce dall'eclettica mente di Teresa Sapey, designer italiana il cui stile è forgiato dal più moderno e creativo pensiero iberico, ma fortemente legato alla tradizione Talenti grazie all'utilizzo di quei materiali solidi come l'alluminio e il legno naturale, che ne contraddistinguono la produzione, garantendo finiture di qualità.

Compact and modern, Nami is the versatile sunbed that enriches any relaxation space. With its iconic mobile headrest that turns into an elegant central armrest, it reveals an absolute novelty that can adapt to multiple design contexts, always being the protagonist. Unique in its kind, it was born from the eclectic mind of Teresa Sapey, Italian designer whose style is forged by the most modern and creative Iberian thought, but strongly linked to the Talenti tradition thanks to the use of solid materials such as aluminum and natural wood, that distinguish the production, ensuring quality finishes.

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elevata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detersivi neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

**Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.**

**Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.**

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Iroko: particolare tipo di legno dotato di numerose proprietà meccaniche, fisiche e tecnologiche: la capacità di opporsi alle sollecitazioni esterne e l'attitudine a lasciarsi lavorare nonostante la sua durezza. La particolare stabilità e la medio-alta durezza conferiscono a questo legno una buona resistenza alle deformazioni e ne garantiscono una durata nel tempo davvero eccellente.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

**Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.**

**Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable raw material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.**

**Iroko: particular type of wood with numerous mechanical, physical and technological properties: its resistance to external stress and workability despite its hardness. The particular stability and medium-high hardness give this wood a good flexural strength resistance to deformation and guarantee excellent durability.**

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Grazie all'utilizzo di materiali puri compattati tra loro ad alte temperature, senza l'aggiunta di resine sintetiche, il gres risulta molto resistente agli urti e alla flessione.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

The stoneware, thanks to its excellent physical and flexural strength, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. Composed of pure ingredients compacted at high temperatures, without the addition of synthetic resin.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Terrazzo

Terrazzo o graniglia è un materiale nato grazie al riciclo degli scarti del cemento colorato e alla lavorazione del marmo. Viene ottenuta da una miscela di cementi fortemente leganti, colorati in pasta con ossidi naturali, e schegge recuperate dalla frantumazione dei più svariati tipi di marmo.

La superficie del Terrazzo viene poi levigata per ottenere una finitura piacevole al tatto e per esaltare la bellezza degli inerti.

Pulizia e manutenzione ordinaria con acqua e sapone neutro. Il sapone naturale pulisce, disinfetta e nutre le graniglie proteggendole allo stesso tempo. NON utilizzare detergenti aggressivi o prodotti acidi/alcasini che comprometterebbero il pavimento calcareo. L'utilizzo, periodico, di cera neutra per marmo nell'acqua ravviva i colori e crea un effetto patina che proteggerà le graniglie.

Terrazzo or Graniglia is a material created by recycling coloured cement waste and marble processing. It is obtained from a mixture of strongly binding cements, coloured with natural oxides, and splinters recovered from the crushing of various types of marble.

The Terrazzo surface is then polished to obtain a finish that is pleasant to touch and to enhance the beauty of the aggregates.

It can be cleaned with water and neutral soap. Natural soap cleans, disinfects and nourishes the graniglia. DO NOT use aggressive detergents or acid/alkaline products that would compromise the limestone floor. The periodic use of neutral marble wax mixed in some water revives the colours and creates a patina effect that will protect the graniglia.

Il Textilene è una fibra di poliestere protetta da un rivestimento in PVC. Le fibre vengono poi legate insieme in modo da ottenere una sostanza fibrosa particolarmente solida e permanente, resistente allo stiramento ed immune da strappi. La caratteristica più importante è la sua elasticità, offre un'eccellente resistenza alle muffe e alle macchie, e presenta un trattamento superficiale contro la degradazione UV.

Il textilene può essere pulito semplicemente con un panno di spugna con acqua saponata. Abrasivi e solventi devono essere assolutamente evitati! Si asciuga molto rapidamente a causa della loro struttura aperta.

Textilene is a polyester fiber protected by a PVC coating. The fibers are bonded together so in order to obtain a particularly solid fibrous material which is durable, resistant to stretching and wear resistant too. The most important characteristic is its elasticity, offers excellent resistance to inhibits mold and stains, and has a surface treatment against UV degradation.

Textilene can simply be cleaned with a sponge cloth with soapy water. Abrasives and solvents must absolutely be avoided! It dries very quickly due to their open structure.
