## OTTO STUDIO

Depuis 2022, Sifas collabore avec OTTO Studio, né de la vision créative de Paola Navone. Domenico Diego et Cristina Pettenuzzo accompagnent Sifas dans l'évolution des styles et des tendances, en travaillant sur la direction artistique de la marque et en créant des collections uniques et inspirantes, toujours plus novatrices et surprenantes. Ce travail est renforcé cette année par des extensions de collections, le choix de tissus premium et les scénographies réalisées pour les showrooms Sifas.

*Since 2022, Sifas embarked on a partnership with OTTO Studio, the interior and design studio born from Paola Navone's creative vision. Domenico Diego and Cristina Pettenuzzo are working with Sifas to develop the DNA of the company, and creating unique, innovative and inspiring collections that never fail to surprise. ## ERIC CARRERE

Collections : KALIFE - KWADRA - OSKAR

Durant sa carrière, Eric Carrère a concrétisé de nombreux projets dans des secteurs très variés : l'électroménager avec SEB, les lunettes avec CEBE mais aussi la SNCF et de nombreuses collaborations dans le mobilier Outdoor avec Sifas. Ce designer industriel aux nombreux talents nourrit son projet d'un brief "produit" et de l'analyse de l'univers de la marque et de son marché. Pour Oskar, il a tout d'abord étudié minutieusement l'histoire du fauteuil metteur en scène, afin de mettre en exergue ses principes fondamentaux pour mieux les sublimer, et développer des matériaux adaptés à un usage extérieur, notamment le teck synthétique que l'on retrouve sur les accoudoirs des fauteuils ou encore les plateaux des tables.

*During his career, Eric Carrère has brought to life numerous projects in very diverse sectors: household appliances with SEB, eyewear with CEBE, as well as collaborations with SNCF and in outdoor furniture with Sifas. This industrious designer with many talents fuels his project with a «product» brief and an analysis of the brand's universe and its market. For Oskar, he first meticulously studied the history of the director's chair to highlight its fundamental principles in order to better sublimate them, and to develop materials suitable for outdoor use, notably synthetic teak found on chairs armrests and tabletops.*
